

Testimonials

"I used to suffer badly from rather extreme urinary tract infections. At first when I first got on to the Energy Balancing Program, it actually seemed to get worse, but that lasted for a brief amount of time. I've never had another one since..." RM, NYC

"Even though my Aunt June still has some health problems, she also has had some great healings as well. Recently her Glaucoma pressure has gone from "21 to 14 for the first time. This is phenomenal! Thank you!" DR, San Diego, CA.

After getting on your energy balancing program I had some blood work done and the doctor said it was unbelievably healthy for any age and he said my good cholesterol was so amazing that it should be bottled for sale for a fountain of youth potion." AR, La Jolla, CA.

"I have noticed some of what you may call subtle changes occurring. There is a definite feeling of clarity going on. A feeling of wellness. My low back ache seems to be gone for the most part. Still more to go yet improvements are happening..." PB, NJ

"I have my sister monitoring our dog Rocky. She's having fun. My first full day on UEB, 3 houses that I had that had been sitting on the market and becoming a royal pain, sold, so if you can attribute this to HEB, well then, I think you have something revolutionary in your hands..." GK, Ontario, Canada

Ancient Wisdom Combined with Modern Technology

Known by many as a Prayer Wheel Program, HEB combines the ancient idea of the Prayer Wheel in which a monk spins what looks like a New Year's noisemaker with prayers written on it and in it on a cloth. The spinning is said to increase the power of the prayer. But eventually, even a disciplined monk's arm gets tired. So we had the idea: What if what's spinning is a computer's hard drive? And the prayers are embedded in the software program? And that's exactly what we did. We call it The Harmonic Energetic Balancing Program (affectionately called the HEB Program). The power of the word is perhaps the most transformative tool on the planet, and here we have the ability to harness it in this sophisticated way in service to ourselves, clients and humanity.

How it Works

In our lives, we are always looking to create harmony within. We fundamentally know that if our energy field is harmonized, our emotional and physical bodies synchronize and work at a more optimum level.

After downloading the program into a computer designated for the HEB, scan a photograph into the hard drive, and enter the demographic data of the client or

individual. The photograph is a holographic representation of the person, of his energy field. Indigenous people intuitively know that photographs have an aspect of their essence in them and why they'll allow photos to be taken of them when they trust the people taking. By affecting this holographic image with balancing frequencies, the energy field of the person, wherever he or she may be, is being affected by the fine-tuned, harmonizing, balancing energies of the HEB Program. We call it "an energetic insurance policy" or having our own "virtual angel". It is always affirming. We think of it as a gift of love.

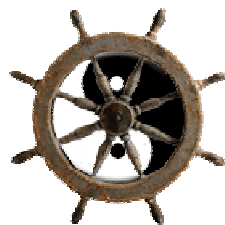

The Energy Field

Embedded in the program are frequencies that come from homeopathic remedies, flower essences and herbs. There are also the frequencies of the colors of the chakras and several other balancing modalities, several thousand frequencies altogether.

These frequencies are interfacing, with and bathing the holographic image of the individual throughout the day and night, balancing, detoxifying, neutralizing. It's a virtual angel, always balancing the energies of daily stresses, activities and interactions.

The Marriage of the HEB Program and the LIFE System

The main developers Chris Keser and Mike Slivinski, developed both the HEB and the LIFE System. They were designed by them to work together, to complement each other, and practitioner's reports have borne this out. LIFE is for seeing and balancing on the spot and HEB is for the ongoing benefit throughout the year. It's like taking the potency of a LIFE session and extending it out over time. The LIFE System of course allows for the specific sending of frequencies and the HEB does not, which is wholly automatic. The intelligence of an individual's energy field, exposed to the many thousands of frequencies in the HEB, selects what it needs at the moment for its optimal balancing, much the way the small intestine selects the nutrients from food that the cells need at a given moment—always changing, always available. With the LIFE System, you work on one person at a time. With the HEB, you can potentially affect hundreds or thousands at a time.

As they both tap into the quantum field, the HEB complements, supports and accelerates the balancing and effect of the LIFE sessions. Having oneself or client on the HEB extends the effect of the LIFE session. The LIFE session is a manual use of the frequencies within a given time-frame. The HEB is working in the background *all the time*, so subtly influencing a person's field before, during and after the LIFE session. When told of it, most practitioners purchase the HEB Program when they buy the LIFE System and enjoy the discounted price when purchased together. Others buy the HEB Program alone.

How Long Does One Use the HEB?

An individual participates in the HEB Program for a year at a time and receives the frequencies every day. It seems to act as an energetic "protection", as a result of which many people renew and use it ongoingly as it is an affordable means of keeping one's energy balanced throughout their lives. We think of the HEB Program as a "an angelic gift of love", so staying with it tends to make a good deal of sense.

The Customized Effect:

Personal Affirmations

Radionic-style programs have been around and in development since the 1920's. The good news is that they have become increasingly effective and sophisticated. The HEB Program brings forth what we consider to be an excellent program with the greatest advance to date, which is *the ability to program in one's own affirmations*. We all know that we're programmed by our parents, grandparents, siblings, our environment and culture. This programming is largely responsible for our health and illness, the quality of our relationships, our financial success and all life's successes or failures. We spend our lives and thousands of dollars to re-program for success, health, happiness and well-being. Here in the HEB, we can do this easily through the demographic window.

To Order

The cost is \$2,200. USD. When purchased with the LIFE System, the current cost is \$1,500. To order is easy. Go to www.quantum-life.com and click on Order The Harmonic Balancing Program. Complete the form in full and send a check to the address listed. Or you can use Paypal or credit card (slightly more expensive with either of these). For more information, contact Ryan Williams Toll Free on + 1-877-711-3113
